

Galactic Large Programs - ideas

• **BIGGER**

- BISTRO-2: more regions? 14h/S2 field
- Galactic Plane (0-50 deg completion) + Galactic Centre – S2 / 13CO/ C18O. Complements FUGIN, GAIA...
- Galactic Anticentre

• *Different*

- Infall candidates
- AGB – Nearby Evolved Stars Survey (currently in PI time)

• *Deeper*

- BISTRO-2: more vectors? 450 microns?
- POL-VeLLOs, proto-brown-dwarfs

• *Complementary / follow-up*

- SCOPE-POL (+HARP) – cores + filaments
- POL - Other regions – better understood? Connecting PLANCK + SMA? (+HARP)
- Molecules + statistics
 - astrochemistry
 - line tracers of physical conditions
